YOBBO

Youth Beyond Borders

WHAT?

The Dutch organisation Cherry Foundation and the Italian organisation YOBBO decided a year ago to create a project in which we examine and exchange the differences between life in rural areas on the countryside and life in cities, connected to what interests you and what you want to find out regarding this aspect.

In July, 2017 we had an exchange in Italy which was focussed on opportunities in cities. For this exchange we will focus more on finding out life in the countryside for youth. Meaning:

- To compare job opportunities in rural areas and urban areas.
- To exchange possibilities for you in these areas (e.g. education, free time, sports, outgoing events, etc.).
- To exchange norms, values, traditions, habits, communication styles between urban and rural areas.
- To make you aware of different lifestyles in different contexts.

During the exchange you have the chance to explore different lifestyles in different settings and what facilities it offers for you. You will be able to compare and reflect it back to your own situation and what opportunities there are in a rural area.

The main emphasis of this exchange is entrepreneurship, meaning how can you take initiative in your life and future career and how can you find (job) opportunities regarding what you want in your life and work.

FOR WHO IS IT?

- The exchange is mainly focussed for persons aged between 18 and 23.
- If you want to learn more about (social) entrepreneurship, than this exchange might be something for you.
- 5 participants per country: 1 group leader + 4 participants

WHAT WILL WE DO?

During the exchange we will use the method 'learning by doing'. This means that we will be mainly doing things and then look back on what you did, why you did it and what you got out of it. This will be done in working together with persons from other countries. During workshops we will explore what your opportunities and possibilities are. During the workshops different working methods will be used, like photography, video, simulation game and/or theatre.

THE EXCHANGE

The exchange will be held in group accommodation Olde Vechte Foundation (<http://oldevechte.com/accommodation/>)

Hosting and catering will be provided by Olde Vechte Foundation.

ABOUT CHERRY INTERNATIONAL FOUNDATION

We are a group of young people who after many years participating and being involved in international events through other organizations, have decided to create our own foundation.

The name Cherry derives from the word cherish, which means "care and hold on something dear". That is exactly how we feel about every project we organize: protect/hold/care about it!

Our aim is to promote international events throughout Europe and when possible all over the world, involving youngsters with fewer opportunities, mainly those from rural areas.

Our vision is to give people the chance to discover their potential in order to create a better world.

Our mission is to organize international events.

ABOUT YOBBO

The meaning of YOBBO is Youth Beyond Borders: our goal is to give possibilities to youth to go out of their comfort zone beyond geographics, economics, physics, psychologicals and cultural borders.

Yobbo is an informal group established to give the opportunity to young people to travel around Europe, learn about other cultures and improve themselves through experiences and challenges that will take them to a new conception of Europe united and possibilities of life more satisfying and international.

Our organization involves youth in intercultural exchanges and trainings that are funded by Erasmus+ programme.
